## DETAILED ACTION

### *Response to Amendment*

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

### *Allowable Subject Matter*

2. Claims 1-13 are allowed.

3. The following is an examiner's statement of reasons for allowance:

*llb* The prior art of record fails to teach or suggest, alone or in a combination, among other things, at least a fractional multi-modulus prescaler for use in a phase locked loop fractional-N frequency synthesizer <sup>and</sup> ~~and~~ its method as a whole, the combination of elements and features, which includes the ployphase filter or means for providing a quadrature signal, receiving an input frequency signal and producing one or more output phase signals having the same frequency as the input frequency signal of the ployphase filter or the quadrature signal having the same frequency as the frequency synthesizer output frequency signal input to the means for providing the quadrature signal having one or more phase signals and a phse difference of 90 degrees relative to one another; a multiplexer or means for selecting one or more phase of the quadrature signal or the output phase signals corresponding to the number of the modulus; an asynchronous divide-by-

N divider or means for applying a division function; and a phase control or means for returning as recited in the claims.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Melava et al. (US 6,583,674 B2) describe a prescaler for generating an output frequency from an input frequency by fractional division.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Edith M. Chang whose telephone number is 571-272-3041. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jay K. Patel can be reached on 571-272-2988. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
